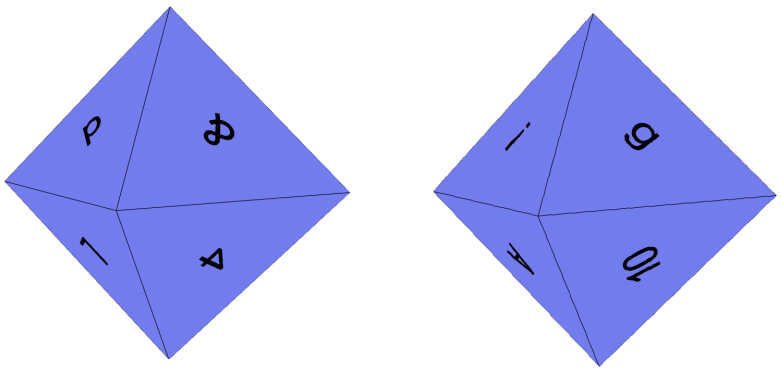
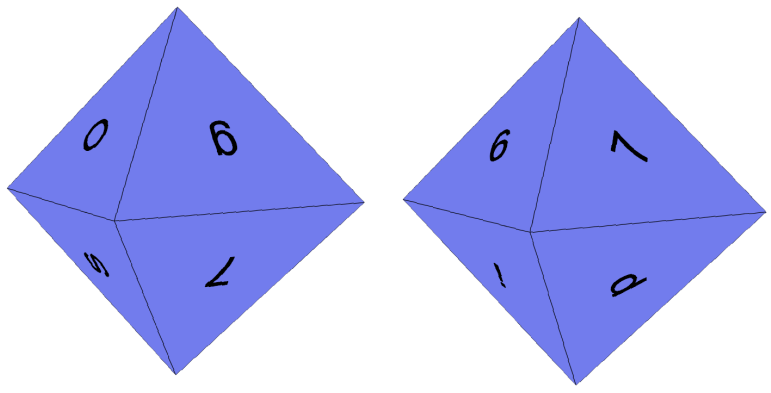
No common features



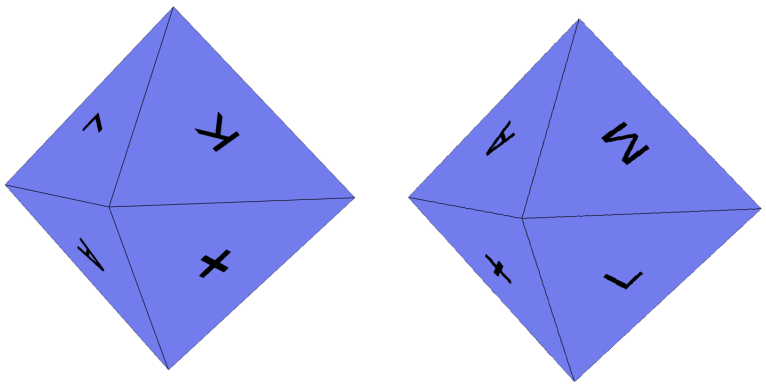
(a) Scenario 1

One common feature



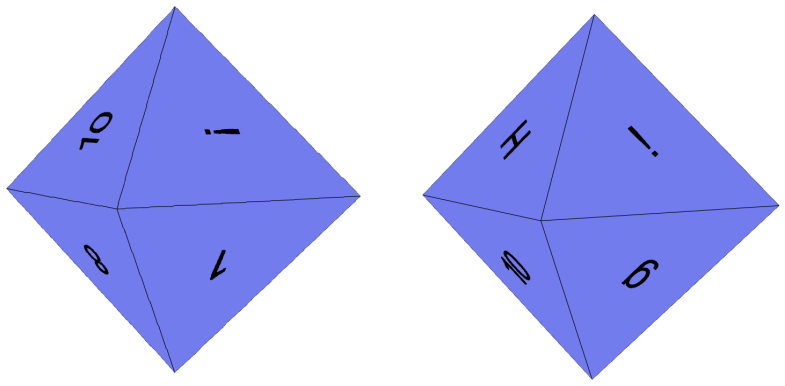
(b) Scenario 2

Three common features



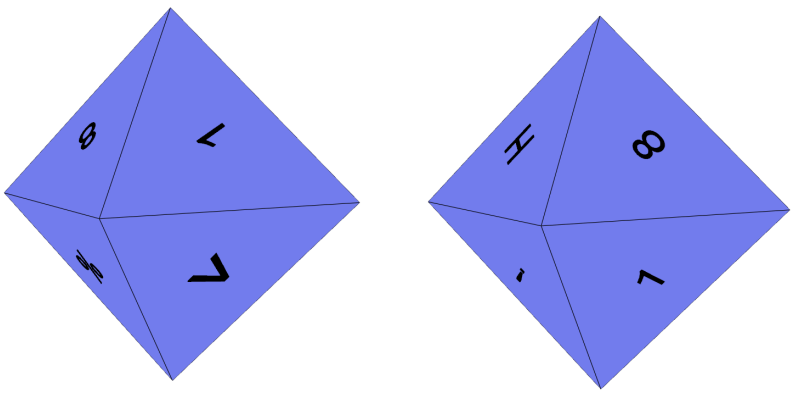
(c) Scenario 3

Two common features, no shared edge



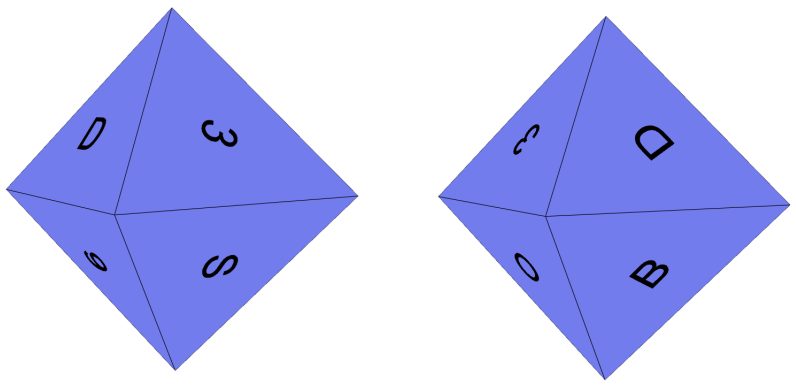
(d) Scenario 4

Two common features-rotation hides features, different octahedron



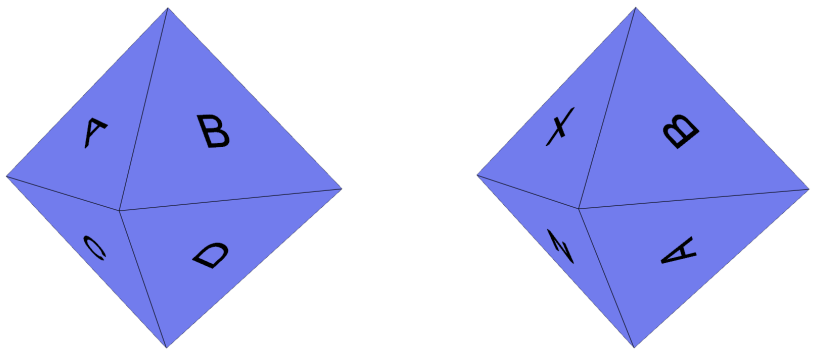
(e) Scenario 5

Two common features, different orientations.



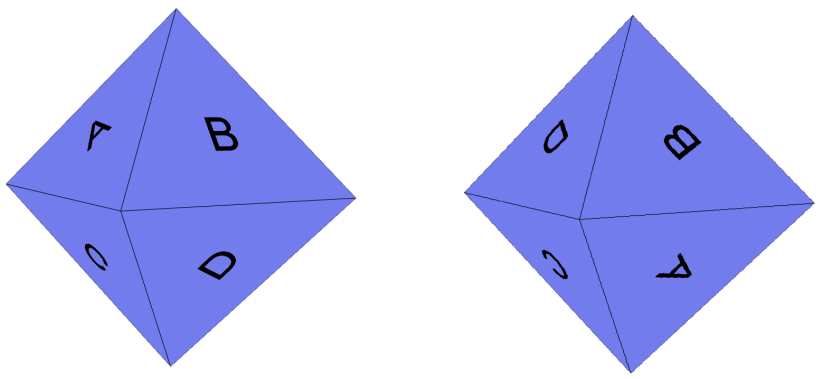
(f) Scenario 6

Two features common, same octahedron.



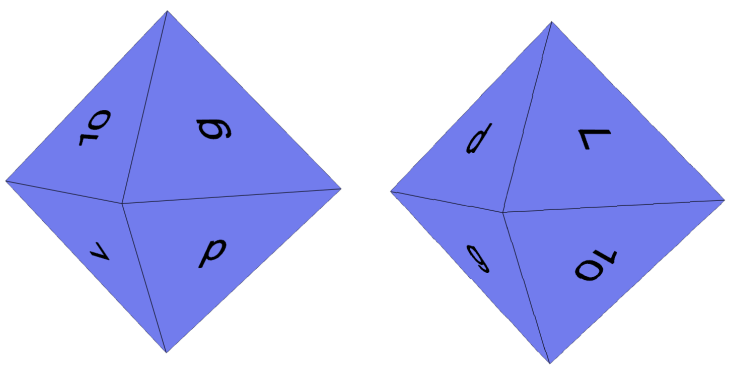
(g) Scenario 7

Four features common, incorrect order.



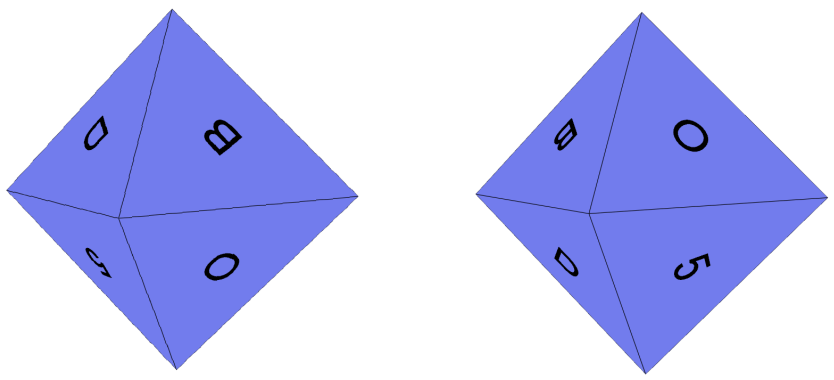
(h) Scenario 8

Four common features, incorrect orientation



(i) Scenario 9

Four common features, identical octahedrons.



(j) Scenario 10

Figure 1: Comparison Scenarios of Octahedron Features
